

## OPTIONAL DATA ACQUISITION UPGRADE AC660A

Year 1  
study

### Features

- Hardware and Software for A660
- 21 Channel Interface
- Configurable software
- Data record, review and save

### Description

The Optional Computerised Data Acquisition Upgrade consists of a 21 channel Hilton Data logger, together with pre-configured, ready to use, educational software. Factory fitted coupling points on the A660 allow installation of the upgrade to the unit at any time in the machine's extensive life. The Hilton Data logger connects, using the cable supplied, to a standard USB port on the user-supplied PC. If more than one logger is required connection is via a second USB port or standard USB hub. The combined educational software and hardware package allows immediate computer monitoring and display of all relevant parameters on the A660. The pre-configured menu driven Software supplied with the Computer Upgrade allows all recommended experiments involving the electronic transducers and instruments on the A660 to be carried out with the aid of computerised data acquisition, data storage and on-screen data presentation. This enhances student interest and speeds comprehension of the principles being demonstrated. Students are presented with either raw data for later hand calculation or alternatively data may be transferred to most spreadsheets for computerised calculation and graphical presentation. Data may be stored on disc and displayed at any time using the software supplied. Alternatively data may be transferred to any compatible spreadsheet together with individual time and date stamp on each reading for complex analysis.

## Related Laws/Applications

- Research
- Refrigeration and air conditioning
- Building services
- Mechanical Engineering
- Marine engineering
- Plant and process engineering
- Food processing
- Chemical engineering
- Mining engineering
- Control engineering
- SCADA Software

## Learning capabilities

- As per:
- A660/220/AC
- A660/220/C/AC
- A660/415/AC
- A660/415/C/AC

## Technical Specification

- IBM PC or compatible
- Pentium processor or higher
- 1GB RAM
- Windows XP or later
- VGA monitor resolution at least 1600x 1200 pixels
- USB port
- CD drive

## Essential Ancillaries

- A660/220
- A660/220/C
- A660/415
- A660/415/C

## What's in the Box?

- 1 x Data Acquisition System
- 1 x Software media
- 1 x USB cable
- 2 x Data logger power cable
- 1 x USB hub
- 1 x USB extender (5 metres)
- 1 x 4 gang extension lead
- 1 x Differential pressure transducer
- 1 x tools

## You might also like

- HSTS
- HPM15

## Supporting Software

- Hilton HDL Software

## Minimum System Requirements

- IBM PC or compatible
- Pentium processor or higher
- 1GB RAM
- Windows XP or later
- VGA monitor resolution at least 1600x 1200 pixels
- USB port
- CD drive

## Essential Services

- Non-Computer Linked version of A660

## Ordering information

To order this product, please call PA Hilton quoting the following code: AC660A
