

PRESSURE TRANSDUCER and DIGITAL DISPLAY F110B

Year 1
study

Description

Addition of the optional Pressure Transducer and Digital Display F110B (to the optional deadweight tester F110A) allows students to calibrate an electronic transducer and relate the pressure points to the electronic signal.

Related Laws/Applications

- Pressure Transducers
- Calibration
- Digital Signals

Learning capabilities

- Pressure/voltage calibration with optional Electronic Pressure Transducer and Digital Display F110B for use with deadweight tester F110A

Technical Specification

- Digital Display units, mV
- 24Vdc power supply

Essential Ancillaries

- F110A

What's in the Box?

- 1 x F110B
- 1 x Power Supply
- 1 x Transducer fitting kit
- Instruction manual
- Packing List
- Test sheet

Essential Services

- 110/120V, 60Hz or 220/240V, 50Hz, single phase, live neutral and earth.
